

PRODUCT CODE

FP-micro

PRODUCT DESCRIPTION

High resolution Bullet Camera-micro

NARRATIVE

No place to mount a standard camera? This high resolution micro camera can be mounted almost anywhere! The viewing angle on this tiny 2cm x 2.5cm camera is 150° and it works in ultra low light. The FP-micro rear view camera is the best quality micro camera on the market. Not only does it let you see what might be blocking your rearward path, but it also serves as a security measure for spotting intruders lurking behind your vehicle and a safety measure to help avoid hitting a child or pet.
